### **Overview**

We are a biopharmaceutical company focused on developing medicines for patients with neglected and rare diseases, with an ancillary focus on pediatric conditions, and on executing our Responsible Pricing Model in the commercialization of our products that may be approved. Our lead product candidate is benznidazole for the treatment of Chagas disease, a parasitic illness that can lead to long-term heart, intestinal and neurological problems. We are developing one of our proprietary monoclonal antibodies, lenzilumab (formerly known as KB003), for the treatment of chronic myelomonocytic leukemia, or CMML, and potentially for the treatment of juvenile myelomonocytic leukemia, or JMML, both of which are rare hematologic cancers with high unmet medical need. We are exploring partnering opportunities to enable development of ifabotuzumab (another of our proprietary monoclonal antibodies, formerly known as KB004), for the potential treatment of serious pulmonary conditions and certain rare solid and hematologic cancers. With a focus on neglected, rare and orphan diseases, we believe we have the opportunity to benefit from various regulatory incentives, such as orphan drug exclusivity, breakthrough therapy designation, fast track designation, accelerated approval, priority review and priority review vouchers, or PRVs, where available, that provide for certain periods of exclusivity, expedited review and/or other benefits.

Upon approval of any of our products, we intend to apply our Responsible Pricing Model, which focuses on affordability for patients and payers, transparency for all stakeholders, and delivery of a reasonable return in recognition of the risks we are taking in our development efforts.

There may be other unknown or unpredictable economic, business, competitive, regulatory or other factors that could have material adverse effects on our future results. Please also read carefully the section below entitled “Cautionary Note Regarding Forward-Looking Statements.”*

### CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

*This prospectus contains statements that discuss future events or expectations, projections of results of operations or financial condition, trends in our business, business prospects and strategies and other “forward-looking” information. In some cases, you can identify “forward-looking statements” by words like “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “intends,” “potential” or “continue” or the negative of those words and other comparable words. These statements may relate to, among other things, our expectations regarding the scope, progress, expansion, and costs of researching, developing and commercializing our product candidates; our intent to in-license or acquire additional product candidates; our opportunity to benefit from various regulatory incentives and the application of our Responsible Pricing Model; expectations for our financial results, revenue, operating expenses and other financial measures in future periods; and the adequacy of our sources of liquidity to satisfy our working capital needs, capital expenditures, and other liquidity requirements. Actual events or results may differ materially due to known and unknown risks, uncertainties and other factors such as:*

- our lack of revenues, history of operating losses, limited cash reserves and ability to obtain additional capital to develop and commercialize our product candidates, including the additional capital which will be necessary to complete the clinical trials that we have initiated or plan to initiate, and continue as a going concern;*
- our ability to execute our strategy and business plan;*
- our ability to list our common stock on a national securities exchange, whether through a new listing or by completing a reverse merger or other strategic transaction;*
- the success, progress, timing and costs of our efforts to evaluate or consummate various strategic alternatives if in the best interests of our stockholders;*
- the availability of a 505(b)(2) development pathway for the potential approval by FDA of our benznidazole candidate as a treatment for Chagas disease remaining acceptable to FDA in the future;*
- the fact that a 505(b)(2) pathway does not assure a product candidate will be deemed safe or effective, or that FDA approval will be obtained;*
- the requirement that we be first to receive FDA approval for benznidazole as a treatment for Chagas disease as a prerequisite to our ability to apply for or receive a Priority Review Voucher in respect of that candidate;*
- uncertainties relating to the timetable for FDA action under the new presidential administration;*
- the potential timing and outcomes of clinical studies of benznidazole, lenzilumab, ifabotuzumab or any other product candidates and the uncertainties inherent in clinical testing;*
- the commercial viability of our proposed drug pricing program;*

- *our ability to timely source adequate supply of our development products from third-party manufacturers on which we depend;*
- *the potential, if any, for future development of any of our present or future products;*
- *our ability to successfully progress, partner or complete further development of our programs;*
- *our ability to identify and develop additional products;*
- *our ability to attain market exclusivity or to protect our intellectual property;*
- *our ability to sell a Priority Review Voucher on reasonable terms or at all;*
- *our ability to successfully commercialize benznidazole;*
- *our ability to reach agreement with a partner to effect a successful commercialization;*
- *the market for benznidazole may not be as large as expected and we may not be able to develop the market as expected;*
- *the profitability of commercial efforts for benznidazole may not be as expected;*
- *competition; and*
- *changes in the regulatory landscape that may prevent us from pursuing or realizing any of the expected benefits from the various regulatory incentives at the center of our strategy, or the imposition of regulations that affect our products.*

*These are only some of the factors that may affect the forward-looking statements contained in this prospectus. For a discussion identifying additional important factors that could cause actual results to vary materially from those anticipated in the forward-looking statements, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Risk Factors” in our 2016 Annual Report on Form 10-K and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, as applicable. You should review these risk factors for a more complete understanding of the risks associated with an investment in our securities. However, we operate in a competitive and rapidly changing environment and new risks and uncertainties emerge, are identified or become apparent from time to time. It is not possible for us to predict all risks and uncertainties that could have an impact on the forward-looking statements contained in this annual report. You should be aware that the forward-looking statements contained in this annual report are based on our current views and assumptions. We undertake no obligation to revise or update any forward-looking statements made in this prospectus to reflect events or circumstances after the date hereof or to reflect new information or the occurrence of unanticipated events, except as required by law. The forward-looking statements in this prospectus are intended to be subject to protection afforded by the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.*

**SELLING STOCKHOLDERS**

The Shares being registered by resale pursuant to this prospectus were issued, or became issuable, in connection with the respective transactions described above under “Prospectus Summary — Information Related to this Offering”. This prospectus is being filed pursuant to our obligations to each of the selling stockholders in connection with these transactions.

The following table sets forth, to our knowledge, certain information about the selling stockholders. The percentage of outstanding shares of common stock beneficially owned before the offering is based on 14,977,397 shares of common stock outstanding as of July 3, 2017. The number and percentage of outstanding shares of common stock beneficially owned after the offering listed in the table below assumes, in the case of Savant, the cash exercise of the warrant for all of the underlying shares, that all of the shares of our common stock (including, in the case of Savant, all shares issuable upon the exercise of the common stock purchase warrant issued to Savant) being offered by the selling stockholders are sold and that no additional shares of our common stock are purchased by the selling stockholders prior to the completion of this offering.

The selling stockholders may offer from time to time all or some or none of their shares of common stock under this prospectus. We do not know how long the selling stockholders will hold the shares before selling them, if ever, and we currently have no agreements, arrangements or understandings with the selling stockholders regarding the sale or other disposition of any of the shares. The selling stockholders are not making any representation that any shares covered by this prospectus will be offered for sale.

The information set forth below is based on information obtained from the selling stockholders and on information in our possession regarding the issuance of the shares and the warrant. Except as otherwise indicated in the footnotes below, based on representations made to us by the selling stockholders, none of the selling stockholders has or within the past three years has had, any position, office or other material relationship with us or any of our affiliates other than as a result of the selling stockholders' beneficial ownership of our common stock. To our knowledge, none of the selling stockholders are broker-dealers or affiliates of broker-dealers, nor at the time of the acquisition, did any selling stockholder have direct or indirect agreements or understandings with any person to distribute its shares or, in the case of Savant, its warrant. Information about the selling stockholders may change from time to time. Any changed information will be set forth in prospectus supplements, if required by applicable law.

(1) Beneficial ownership is determined in accordance with the rules of the SEC and generally includes voting and/or investment power with respect to securities. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, securities that are currently convertible or exercisable into shares of our common stock, or convertible or exercisable into shares of our common stock within 60 days of the date hereof are deemed outstanding. Such shares, however, are not deemed outstanding for the purpose of computing the percentage ownership of any other person. Except as indicated in the footnotes to the following table, each stockholder named in the table has sole voting and investment power with respect to the shares set forth opposite such stockholder's name.

(2) Assumes that all securities registered will be sold.

- (3) Black Horse Capital LP, or BHC, directly holds and has shared voting and dispositive power with respect to 872,977 of these shares, 612,501 of which are being offered, Black Horse Capital Master Fund Ltd., or BHCMF, directly holds and has shared voting and dispositive power with respect to 2,040,463 of these shares, 1,429,407 of which are being offered, Cheval Holdings, Ltd., or Cheval, directly holds and has shared voting and dispositive power with respect to 2,035,318 of these shares, 1,531,610 of which are being offered, Black Horse Capital Management LLC, or BH Management, has shared voting and dispositive power with respect to 2,913,440 of these shares, 2,144,111 of which are being offered, and Dr. Chappell has shared voting and dispositive power with respect to all of these shares. All of the shares issuable upon exercise of the warrant are subject to registration rights.

## **DETERMINATION OF MARKET PRICE**

The selling stockholders will determine at what price they may sell the offered shares, and such sales may be made at prevailing market prices or at privately negotiated prices. See “Plan of Distribution” below for more information.

## **USE OF PROCEEDS**

We will not receive any of the proceeds from any sale or other disposition of the common stock covered by this prospectus. The selling stockholders will receive all of the proceeds from this offering.

We will receive proceeds upon the cash exercise of the warrant for which the underlying warrant shares are being registered hereunder. Assuming full cash exercise of the warrant at the exercise prices specified therein, and assuming no further adjustments to the exercise prices, we would receive gross proceeds of \$450,000. We intend to use any net proceeds from any exercise of the warrant for operating costs, working capital, and general corporate purposes. The amount and timing of our actual use of proceeds may vary significantly depending upon numerous factors, including the actual amount of proceeds we receive and the timing of when we receive such proceeds. There is no guarantee that the warrant will be exercised, or that the warrant will be exercised for cash or in full. The terms of the warrant provides that it may be exercised on a cashless basis if, at the time of exercise there is no effective registration statement registering, or no current prospectus available for, the resale or other disposition of the underlying shares by the warrant holder or its transferee and provided that the warrant holder or such transferee has cooperated with our reasonable requests in connection with our efforts to register such resale or other disposition. We will not receive any cash proceeds as a result of any portion of the warrant that is exercised on a cashless basis. The exercise price and number of shares underlying the warrant may be adjusted in certain circumstances, including subdivisions and stock splits, stock dividends, combinations, reorganizations, reclassifications, consolidations, mergers or sales of properties and assets and upon the issuance of certain assets or securities to holders of our common stock, as applicable.

## PLAN OF DISTRIBUTION

We are registering the shares of common stock on behalf of the selling stockholders. The selling stockholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. The selling stockholders may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling stockholders may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- transactions through a broker-dealer in which the broker-dealer agrees with a selling stockholder to sell a specified number of shares at a stipulated price per share;
- privately negotiated transactions;
- exchange distributions in accordance with the rules of the applicable exchange;
- short sales;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law.

Broker-dealers engaged by the selling stockholders may arrange for other broker-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The selling stockholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved. Any profits on the resale of shares of common stock by a broker-dealer acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. Discounts, concessions, commissions and similar selling expenses, if any, attributable to the sale of shares will be borne by a selling stockholder. The selling stockholders may agree to indemnify any agent, dealer or broker-dealer that participates in transactions involving sales of the shares if liabilities are imposed on that person under the Securities Act.

We are not aware of any written or oral agreement or understanding that the selling stockholders have entered into with any person to distribute shares of our common stock covered hereby. The selling stockholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. If the selling stockholders use this prospectus supplement and accompanying prospectus for any sale of the shares of common stock, they will be subject to the prospectus delivery requirements of the Securities Act.

In connection with the sale of the common stock or interests therein, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The selling stockholders may also sell shares of the common stock short and deliver these securities to close out its short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling stockholders also may transfer the shares of common stock in other circumstances, in which case the transferees or other successors in interest will be the selling beneficial owners for purposes of this prospectus supplement and accompanying prospectus and may sell the shares of common stock from time to time under this prospectus supplement and accompanying prospectus after we have filed an amendment to this prospectus supplement under an applicable provision of the Securities Act supplementing or amending the list of selling stockholders to include the transferee or other successors in interest as selling stockholders under this prospectus supplement.

The selling stockholders and any other person participating in a distribution will be subject to the Exchange Act. The Exchange Act rules include, without limitation, Regulation M, which may limit the timing of purchases and sales of shares of our common stock by the selling stockholders and any such other person. In addition, Regulation M of the Exchange Act may restrict sales activity by a person engaged in the distribution of the shares for a period of up to five business days prior to the commencement of such distribution. This may affect the marketability of the shares of our common stock and the ability of any person or entity to engage in market-making activities with respect to shares of our common stock. We have informed the selling stockholders that the anti-manipulative provisions of Regulation M may apply to their sales in the market.

We will not receive any of the proceeds from this offering. We are required to pay certain fees and expenses incurred by us incident to this registration statement and the registration of the shares generally. We have agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act and other securities laws.

In order to comply with certain states' securities laws, if applicable, the shares sold in those jurisdictions may only be sold through registered or licensed brokers or dealers. In addition, in certain states, the shares may not be sold unless the shares have been registered or qualified for sale in that state or an exemption from registration or qualification is available and is complied with.

We do not assure you that the selling stockholders will sell any or all of the shares offered by them pursuant to this prospectus. In addition, we do not assure you that the selling stockholders will not transfer, devise or gift the shares by other means not described in this prospectus. Moreover, any shares of common stock covered by this prospectus that qualify for sale pursuant to Rule 144 may be sold under Rule 144 rather than pursuant to this prospectus.

We may suspend the use of this prospectus if we learn of any event that causes this prospectus to include an untrue statement of a material fact or omit to state a material fact required to be stated in this prospectus or necessary to make the statements in this prospectus not misleading in light of the circumstances then existing. If this type of event occurs, a prospectus supplement or post-effective amendment, if required, will be distributed to each selling stockholder.
